PERFORMANCE HISTORY

	2004-05 Actual	2005-06 Actual	2006-07 Actual	2007-08 Modified Budget	2007-08 Actual

Fund Balance				420,414	

In accordance with Section 29009 of the State Government Code, the entire unreserved fund balance must be appropriated each year. Accordingly, actual appropriation in this budget unit is less than modified budget. The amount not expended is carried over to the subsequent year's budget.

In addition, actual appropriation is less for 2007-08 than modified budget as a result of delays in purchase of systems and software to scan and digitally store vital statistics data. The program is still researching the best method of implementation and has not included the purchase and implementation in 2008-09.

Contingencies of \$503,078 are increasing by \$180,414 based on reduced operating transfers out and available fund balance.

Operating transfers out of \$167,000 are decreasing by \$100,000 due to lower anticipated expenditures for automation, including the non-purchase of an automated vital statistics system.

Interest revenue of \$19,820 reflects a slight increase due to a higher available cash balance.

Current services revenue of \$140,000 is decreasing by \$10,000 based on a possible revenue sharing agreement with Auditor/Controller-Recorder Department for birth and death certificates.
